Message from Principal's Desk

“All of us do not have equal talent. But, all of us have an equal opportunity to develop our talents.”- A P J ABDUL KALAM

It gives me immense pleasure to pen down a few words for the newsletter significant changes and tremendous value additions are found in the holistic and comprehensive development of the learners and that there has been a paradigm shift in the innovation driven education today. Academic results of class X and XII of the school have witnessed a greater progression. 99% and 100% marks in some subjects encourage us that we are striving towards excellence. The co – curricular and extra – curricular activities carried out in the school have imparted meaningful contributions in the acquisition of life skills by the learners like problem solving skills, creative thinking skills, critical thinking skills and decision making skills.

The intrinsic motivation developed by the teachers, the office staff and all the members of the AECS-4 family to keep the values of accountability, culpability, transparency and sociability has taken us to a new academic heights ever. The developing *intelligence quotient (I.Q.) and spiritual quotient (S.Q.)* prioritised in the school keep abreast with the changing dynamics of teaching and learning. The newsletter serves as a replica of the school and it represents a panoramic view of the vision and achievements of the school. *Vasudhayeiva kutumbakam.*
