“A good teacher is like a candle; it consumes itself to light the way for others.” And to honour these candles 5th September is celebrated as Teachers’ Day all over India. The starting of this day in AECS-4 was with a morning assembly with a beautiful prayer sung by the students and the lightning of the lamp. On this day all the teachers were made free of their jobs as the students of class 12th were made the student-teachers and were given the responsibility of running the school that day.

The responsibilities of the Principal, Vice-Principal, Head Mistress were given to Master Manas Kuryawat, Ms. Nirupama B Nair and Ms. Sakshi Singh respectively. Speeches

were given by some of the students in order to accentuate their feelings for the teachers. Then, every teacher was honoured with a bouquet and a card by students.

After the assembly, the student-teachers were sent to their classes to teach the students and were evaluated by the teachers on various parameters to select the best teachers. Then, the students were again taken to the assembly hall for some cultural programmes which included a dance and songs. Two special songs

*Teachers day is celebrated on the birthday of India’s second president Dr S Radhakrishnan*

were presented by the students of class 12th. An Antakshari of teachers became the highlight of the programme and it was enjoyed by everyone. And at the end, students were given relishing refreshments.

“ I am indebted to all my teachers, not just today, but, every other day...”

## CHILDREN'S DAY CELEBRATION - 2019

Correspondent: Arup Majumdar, XII B

On 14th of November this year too children's day was celebrated on the occasion of 131st birthday of the first P M of independent India.

On this special occasion, the students from class 1st to 12th were instructed to attend the school in their civil uniform. All the students appeared in school before 7.30am in the costumes they chose. The whole school was looking great and colorful unlike those regular days.

The assembly took place as usual. It was full of discipline. It started with prayer followed by the student's pledge and then our beloved principal Mr. A Joseph John lighted the lamps and garlanded the portrait of Chacha Nehru as per our old ritual and Indian culture. He then addressed the students of our school. It was then followed by the speeches given by our students only.

Then came the most awaited part of that day's function i.e. the cultural program. The school organized CCA house wise group dance competition in which a total of 8 dances were performed by the students of secondary and senior secondary. The judges for this competition

were our own loved Netrica madam TGT (science), Bhatnagar sir, our music teacher and Mrs. Nikita Jangid, a dance teacher in our Rawatbhata. All the four houses had participated with their full efforts after the hard practice they had been doing for one week.

After the competition, the results were announced. In the secondary category Shivaji (Red) house secured the first position followed by Subhash (Yellow) grabbing the second position and then Tilak (Green) became second runners up. And in the senior secondary Subhash house grabbed the first prize and Shivaji became the 1st runners up and Pratap

(Blue) became 2nd runners up.

After the dances were over the invited judge Nikita Madam along with Dr. Rinku Gupta madam (PGT) and Ms. Soniya Sayam (PGT) joined for a dance with Mrs Nikita Jangid, one of the judges of the competition. At the end of the programme, the National Anthem took place followed by the dispersal of students.

It was worth remembering Children's Day for all the students.

After the dispersion the students were given some refreshments.

*The Periodic Glimpses: Newspaper of AECS # 4, Rawatbhata is a pilot project and is the maiden attempt by this school among all AEC Schools under AECES. It provides opportunities to our students of exploring their writing and reporting caliber and possibility. The most significant salient feature of The Periodic Glimpses is the feeling of ownership of the newspaper by our students because they witness the activities and events in the school and come into action like the actual reporters. The news written by them is solely their version and it gets published in their names as the author. The student-reporters not only get recognition among their comrades but also get to realize their potential for writing and analyzing and interpreting the data. This though seemingly simple task has the capacity to infuse in them the confidence to recognize their prowess as a writer. This has a futuristic purpose which the students would be able to recognize later in their career and life, and they would be content to recall their school's name with great pride and passion for contribution in their lives differently other than the routine course of teaching- learning.*

## Some Glimpses from Rangoli Competition
